

# BTEC LEVEL 3 EXTENDED DIPLOMA IN MUSIC TECHNOLOGY

The BTEC Level 3 Extended Diploma in Music Technology is an intensive and exciting 2 year course, delivered by highly qualified teaching staff.

This qualification has a strong practical basis giving students the opportunity to develop their personal potential and acquire a wide range of practical skills which will support further study or entry into employment in relevant industries. The course makes extensive use of BOA's excellent resources including state of the art pro-tools equipped recording studio and a Mac-based editing suite. This is a specialist programme and is aimed at students who already have a passion for and experience of music technology.

## What will I learn on the course?

- Backline Technical Management
- Studio production techniques
- Live sound techniques
- Sequencing systems and techniques
- Sampling and synthesis
- Composition

## How is the course structured?

The BTEC Level 3 Extended Diploma in Music Technology consists of 18 specific skill units over 2 years, which are individually assessed with Pass, Merit or Distinction grades.

## How will I study?

The BTEC Level 3 Extended Diploma in Music Technology will provide a variety of learning opportunities including group and individual work in performance, production, engineering, back line, live sound design and composition.

BOA works in partnership with a range of performing arts providing students with opportunities to further enhance their vocational skills.

## How will I be assessed?

Assessment for this course will be based on evidence collected in student log books, written reports, presentations, recorded material (both audio and video) and observation. All work must be submitted by the deadline and only one chance will be given for resubmission.
